Data Engineering & ETL: SSIS (Advanced), SQL Server (Advanced), Data Modelling (Star Schema) (Expert), ETL Pipelines (Advanced), Data Governance & Validation (Advanced)

Programming: SQL (Advanced), Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn) (Proficient), Django (Proficient), C# (Proficient)

Web & Markup: HTML (Expert), CSS / Bootstrap (Advanced), JavaScript (Intermediate)

PROFESSIONAL EXPERIENCE

Business Intelligence Manager | AlArabia Group | Apr 2022 – Apr 2025 | 10th of Ramadan, Sharkia, Egypt

- Led, mentored, and grew a team of junior BI developers and analysts; established robust code review practices, structured learning paths, and retention strategies that elevated team technical capability and delivery speed.
- Partnered with cross-functional executive leadership to translate complex business objectives into actionable KPIs, enterprise dashboards, and scalable data products.
- Oversaw the design and optimisation of enterprise semantic models and advanced star schemas, ensuring high-performing, single-source-of-truth data assets organisation-wide.
- Championed integration of modern ETL pipelines (Python/SQL) and cutting-edge visualisation libraries to deliver highly customised, interactive reporting solutions.
- Directed implementation of DevOps-style automated deployment workflows for semantic model management, significantly reducing manual error and accelerating time-to-market.

Business Intelligence Developer – Section Head | Nexus | 2022 – Present | New Cairo, Egypt

- Implemented ongoing data validation and governance policies to maintain data integrity and reliability across all BI assets.

- Delegated tasks to a 6-member BI design team and provided counsel on all aspects of projects.
- Supervised assessment of all BI solutions to ensure quality and accuracy of data models.
- Built data models, reports, and dashboards; performed ETL operations to support data-driven decision-making across the organisation.
- Conducted training sessions to familiarise end-users with BI tools and ensure effective adoption of reports and dashboards.

Senior Data Analyst | Genena Group | 2019 – 2022 | New Cairo, Egypt

- Created financial Power BI Reports for the Owner and CEO.
- Delivered SSRS reports for direct managers.
- Produced Price Analysis Reports and Market Price Standard Deviation models.
- Measured re-order point, maximum/minimum stock levels, and inventory turnover rate.

Business Intelligence Analyst | Roads and Transport Authority | 2017 – 2019 | Dubai, UAE

- Developed BI solutions using SSRS, Power BI, SSIS, SSAS, and SQL Server.
- Collaborated with the finance team on settling all supplier-related payments.
- Implemented executive dashboards for the director board.
- Negotiated competitive freight offers among various freight forwarders.

Supply Chain & Data Analyst | Universal Group & Gourmet | 2010 – 2017 | Cairo, Egypt

- Planned raw material requirements to support the manufacturing process.
- Exported and analysed data from SQL Server database engine.
- Developed SSAS Data Models and added new calculated measures.
- Prepared departmental performance reports and suggested improvements to enhance company profit margins.

EDUCATION

Diploma – Data Analysis & Python | Udacity, UK | 2018 – 2019

Specialised in Python data analysis using Pandas, NumPy, Matplotlib, Seaborn, and Scikit-learn to process, visualise, and extract insights from complex datasets.

Bachelor's Degree – Accounting & Supply Chain Management | Helwan University, Faculty of Commerce, Egypt | 2005 – 2009

Extensive knowledge of supply chain management, logistics, and accounting, enabling analysis and optimisation of business operations.

CERTIFICATIONS

- Microsoft PL-300 – Power BI Data Analyst Associate
- Microsoft DA-100 – Analyzing Data with Microsoft Power BI
- Microsoft Excel 365 Expert

PORTFOLIO

A curated collection of 120+ BI projects spanning Banking, Healthcare, Retail, and Digital Marketing. Highlights include a comprehensive OCR data management solution for SNB Bank (Saudi Arabia) in collaboration with Tejoury — delivered within three months, enabling data-driven decisions through clear visualisations and seamless reporting.
